

Centrifugal Compressors

Tailor-made design and manufacture of process centrifugal compressors with electromotor or gas turbine drive for flow rates in the range of 60 to 80000 Sm³/min and discharge pressures from 30 to 200 bar.

- 1 Outer Casing
- 2 Diaphragm
- 3 Impeller
- 4 Volute
- 5 IGV
- 6 Journal Bearing
- 7 End Cover
- 8 Shaft
- 9 Balance Piston
- 10 End Cover
- 11 Thrust Bearing
- 12 Journal Bearing
- 13 DGS
